Total Primary Energy Supply in ASEAN between 2005 and 2015

Data source: ACE | Design: Hengki Irawan

 $From \ 2005 \ to \ 2015, \ Indonesia \ was \ still \ as \ the \ top \ energy \ supplier \ for \ ASEAN \ . \ Some \ fluctuations \ observed \ in \ three \ countries: \ Brunei \ Darussalam, \ Cambodia \ and \ Laos. \ Also, \ all \ and \ Also, \ and \ Also, \ and \ Also, \ all \ and \ Also, \ and \ and \ and \ Also, \ and \ and \ Also, \ and \ and \ Also, \ and \ and \ and \ Also, \ and \ and \ Also, \ and \ and \ Also, \ and \ and \ and \ Also, \ and \ a$ countries, except Brunei, had increased ther supply since 2005.

In term of fuel types for primary energy supply, crude oil, natural gas and coal were still the most favorite in ASEAN countries.

TPES by fuel types
